RIDICULE JOHN D. IN VERSE.

Storm by Lines in Comic Opera. Chicago, April 11 .-

The above stunza and others bearing

sentiments ridicaling University of Chi-Midway school with John D. Rockefeller have stirred trouble for the student authora of "The Passing of Raxes," the annual comic opera of the University Blackfriers Club to be given at Manuel Hall next month. They were written as lyries for a song entitled "Money" to be sung at the Blackfriers' celebration, but have so profised the wrath of the faculty that they are likely to omitted.

One of the stanzas mentions Mr. Rockefeller by name, and intimates that the professors accommodate their teachings to the oil magnate's orders. The playwrights were informed yesterday that they would probably have to omit money, and franks. They declare, howwer, that the song will be sung, faculty or no faculty.

The offending verses were composed by William F. Macdermid and set to music by Herman Mendel, Jr.

Gov. Pattison Better.

Cincinnati, O., April 11.-Gov. Patti-son's condition yesterday was more encouraging than it has been since he was

### IN NATURE'S LABORATORY.

generally known as Golden Seal. Dr. Pierce found the root of this common forest plant to possess medicinal principles of great potency, especially when combined, in just the right proportions, with Queen's root, Black Cherrybark, Stone root, Mandrake root and Bloodroot, the properties of each being extracted and preserved in chemically pure glycerine of proper strength.

This compound Dr. Pierce named his "Golden Medical Discovery," in honor of the sturdy little Golden Seal plant. So little used was the root of this plant by the medical profession at that time, that it could be purchased in the open markets for from fifteen cents to twenty cents a pound. The

cents to twenty cents a pound. The use of many tons of this root every year in Dr. Pierce's two leading medicines—for it enters into both "Golden Medical Discovery" and also into Dr. Pierce's Favorite Prescription as one of their most important ingredients—has caused the price of the root to advance until to day it commands unwards of

caused the price of the root to advance until to-day it commands upwards of a dollar and a half a pound.

DR. PIERCE'S FAITH.

Dr. Pierce believes that in our native forests are to be found an abundance of most valuable medicinal plants for the cure of many distressing and most fatal maladies, if we would only seek them out, test them and learn how and for what diseases to use them. Furthermore, he believes that the vegetable kingdom is the one to resort to for the most harmless remedial agents. They act most kindly upon the human system and are eliminated or carried out of the body by the natural functions without injury, even in cases where it is necessary to make protracted use of them in order to experience permanent cures. Dr. Pierce's medicines and trespassed upon by unprincipled imitators and those who may be piratically inclined. where it is necessary to make protracted use of them in order to experience per-manent cures. Dr. Pierce's medicines being purely vegetable, are perfectly harmless. In other words, while they are potent to cure, being purely vege-table in composition and containing no alcohol, they leave no bad effects behind. This is not generally true when mineral medicines and those containing large percentages of alcohol are taken into the system and their use protracted over considerable periods of time.

Many years ago. Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and ervative of the medicinal principles

Buried deep in our American forests, by years ago, Dr. Pierce found a build, blooming plant the root of which possesses wonderfully efficacious properties as a stomach and general tonic, also as an alterative or blood purifier and liver invigorator, having an especial affinity for all mucous surfaces upon which it exerts a most salutary, soothing and healing influence.

This sturdy little plant is known to botanists as Hydrastis Canadensis, but has several local English names, being generally known as Golden Seal. Dr. Pierce found the root of this common forest plant to possess medicinal principles of great potency, especially when combined, in just the right proportions, with Queen's root, Black Cherrybark, Buried deep in our American forests, ous, over-worked and broken down

ALL RIGHTS PROTECTED. The exact working formula for making Dr. Pierce's medicines without the use of a drop of alcohol and preserving them unimpaired in any climate for any length of time, cost Dr. Pierce and his assistant chemists and pharmacists a tedious course of study and experiments, extending over several years. With the use of chemically pure glycerine, of just the right strength, and with laboratory apparatus and appliances specially invented and designed to carry on the delicate processes employed, Dr. Pierce finally found that all the medicinal principles residing in the several native medicinal roots could be more perfectly extracted and better preserved from fermentation than if alcohol was employed.

In favor of Dr. Pierce's medicines is the frank, confiding, open, honest statement of their full composition, giving every ingredient in plain English without fear of sucessful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these

A little book of extracts from many standard medical works of all the dif-ferent schools of practice, indorsing, in preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, futhermore, that it possesses intrinsic medicinal properties of its own, being demulcent, nutritive, antiseptic and a most efficient anti-ferment.

They stand alone.

They stand alone.

The fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, nerv-
